

A & J Manufacturing builds equipment racks/enclosures and installation kits that safeguard vital electronics.

## CORE COMPETENCIES

### QUALITY CONSTRUCTION

All of our equipment is built for performance and dependability using lightweight aluminum with a full complement of mounting kits and other accessories.

### INNOVATIVE DESIGN

We've pioneered approaches with advanced thinking, design expertise and implementation know-how to equip various industries with leading-edge hardware.

### SIMPLE SETUP

Our unique "bolted together" construction allows flexibility for easy assembly and disassembly (no welding required).

## PAST PERFORMANCE

A & J Manufacturing Company has vast experience in delivering outstanding service to government agencies and private businesses. Our programs of delivery include the following:

- SIWCS (Ship wide Interior Wireless Communication System)
- TACAN (Tactical Air Navigation System)

# DIFFERENTIATORS

A & J Manufacturing Company is on a mission to provide standout equipment fabrication services to clients across the country. We're doing this by committing to lean manufacturing principles, adhering to the highest quality standards and adapting to the changing needs of our clients.

## WOMEN-OWNED:

A & J Manufacturing Company is a small, women-owned organization. We both respect our legacy and look forward to moving with the times in 2020 and beyond.

## 80+ YEARS OF ENGINEERING EXPERIENCE:

Our responsive and easy-to-work with engineering team has the wealth of expertise and practical knowledge needed to create a solution that perfectly meets your needs.

In our 65+ years of operation, we've successfully completed over 1000 projects for national and international clients.

## CERTIFIABLE EXCELLENCE:

A & J Manufacturing Company is an ITAR Registered Manufacturer with AS9100D and ISO 9001:2015 certifications. You can rest easy knowing that your projects are being handled by a vetted team of professionals.

## END-TO-END SERVICE PROVIDER:

We design, fabricate, assemble and dispatch all of our products directly from our secure facility in California. This allows us to retain total control over the process from start to finish, guaranteeing quality results every time.

## OUR CLIENTS:

Choosing the right company can be difficult, but we're confident that A & J Manufacturing Company can partner with you to meet your requirements. With our experienced engineers, proprietary designs, and market-leading dedication to quality construction, we're in a prime position to meet your needs.
